Zero Risk Solar is brought to you by RentWorks

RentWorks in partnership with our solar partners is offering our clients the option of taking up RentWorks Zero Risk Solar Solution.

What is RentWorks Zero-Risk Solar Solution?

RentWorks is able to offer clients a non-obligatory assessment to have solar installed on their premises and then to purchase the electricity produced by the solar system at a rate which is lower than Eskom. To put it simply, we are offering clients the opportunity to purchase electricity at a cheaper rate than Eskom.

What is the downside?

The only obligation which our clients will have is to purchase (at an agreed rate and volume) the electricity produced by the solar system. Our clients will have no responsibility to operate or maintain the system and there are no upfront costs.

Which companies is this applicable to?

RentWorks Zero Risk Solar Solution is available to any South African business which meets the following requirements:

1. Offices are located in South Africa;
2. Have sufficient rooftop or land to install the solar system;
3. Consume at least R65 000 per month in electricity;

Limited offer

RentWorks Zero Risk Solar Solution will be available until the 31st Of January 2025 If you are interested in exploring this option send an email to info@rentworksafrica.com and we will start the process.
